5th February 2018

**54th H. T. S. ANNUAL DINNER - Friday 23rd March, 2018
GRAND CONNAUGHT ROOMS, WC2 - 6.00 for 7.00 pm**

The Heat Transfer Society holds many technical meetings each year in support of heat transfer engineering, but our most prestigious function is the Annual Dinner. This year we celebrate our 54th year as the only UK learned society devoted solely to the field of heat transfer.

I will be sending out a circular to the Society's members in due course, but thought that you might like information on the date in case you wish to join us. Should you require a company table, these can be booked for between eight and twelve persons.

The cost of tickets this year will be £62.00 for Members and £67.00 for Non-members. As usual, there will be a four-course meal and prices include VAT. Dress for the occasion will be lounge suit.

Prof. D.Eng. Dr.-Ing. habil Hans Müller-Steinhagen will be installed at H.T.S. President for 2018. Hans is the Rector (i.e. president) of Technische Universität Dresden, one of the 11 German Universities of Excellence. Following a distinguished academic career in Canada, New Zealand and England, he became the Director of the Institute of Technical Thermodynamics of the German Aerospace Centre and Director of the Institute for Thermodynamics and Thermal Engineering of the University of Stuttgart from 2000-2010. In this capacity, he was leading 270 research staff working on topics related to heat and mass transfer, heat exchanger design and fouling, process thermodynamics, multi-phase flow, fuel cells, solar technology and energy systems analysis. Prof. Müller-Steinhagen has been the supervisor of 65 doctoral theses, author or co-author of more than 650 publications, and the recipient of numerous international awards and prizes. In 2012, he received an honorary doctorate from the University of Brno in the Czech Republic and in 2015 from Dankook University in South Korea. Furthermore, he is a fellow of the Royal Academy of Engineering and of ACATECH, and a member of many supervisory and advisory boards. In 2014 Prof. Müller-Steinhagen was elected the "German University Manager of the Year".

If you wish to attend please complete the attached form and return it to me. Include any details of company table, numbers attending and any special dietary requirements.

Yours sincerely,

Simon Parsons
