

Membership Application Form

FOUNDATIONS AND AIMS OF THE SOCIETY

The Society, formed in the early 1960's and registered as a friendly society in 1964, aims to promote all aspects of heat transfer and associated equipment by enabling engineers engaged in any area of activity which involves any of these aspects to meet and discuss subjects of common interest.

ELIGIBILITY FOR MEMBERSHIP

Membership is open to applicants who have been engaged, for not less than two years, in any area of activity involving heat transfer or associated equipment (examples listed below). The Proposer and Secunder must have been members of the Society for at least twelve months.

SOCIETY ACTIVITIES

The Society holds regular Forum Meetings, normally in London, to discuss heat transfer and/or the design, manufacture, usage, research or marketing of heat transfer equipment. The Annual General Meeting, Annual Dinner and President's Night are also held each year. Other social events may also be arranged during the year. Meetings may occasionally be held in other areas, depending on local interest and organisation.
